**AMENDMENT AFTER ALLOWANCE**  
**(37 C.F.R. § 1.312)**

Please amend the above-referenced application as follows:

**In the specification:**

Please amend paragraph number 0046 to read as follows:

[0046] With reference to FIG. 7, there is shown therein, another preferred embodiment of the support member 27A of the cutter link 22A. Each upper end 28A of the pair of side plates 26A has an arcuate portion that opposingly mate and join together with the corresponding opposite arcuate portion, such as by the weldment 90. However, any other mode of attachment that will fixedly attach the upper arcuate portions may be used. Alternatively, the arcuate upper portions [92]28A may be removably attached to each other. The joined upper arcuate portions [92]28A provide an arcuate support surface 36A for attachment of at least one cutting member 20 to support member 27A.
